

SEVENPRO

Software development and IT consulting company

WEBSITE DEVELOPMENT

 30 MINUTE MEETING

<https://seven-pro.com>

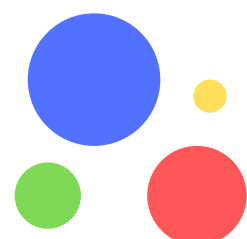

PROBLEM AND CHALLENGES

We created a WordPress theme from scratch based on the provided design mockups. We used various plugins, including ACF Pro and Contact Form 7. Additionally, we enhanced an existing plugin to integrate it with the CRM system for the HR department. Furthermore, we implemented animations as demonstrated in the design prototype. Our services encompassed all these aspects, resulting in a fully functional and visually appealing website.

SOLUTION AND RESULTS

Our solution encompasses custom design, responsive functionality, essential plugins, animations, and user-friendly content management to create an aesthetically pleasing and functional WordPress website.

WHERE DO YOU WANT TO GROW YOUR BUSINESS TODAY?
